## Systema Software Selected by City of Anaheim

*SIMS Claims Will Provide Seamless Interfaces with Microsoft Office 365, Power BI, and Third-Party Solutions; and Sophisticated Data Mining and Reporting Capabilities*

Larkspur, CA – November 14, 2016 – [Systema Software](#), LLC, a leading provider of [claims administration software](#) and services to the insurance industry, today announced that the city of Anaheim has selected [SIMS Claims](#)<sup>™</sup> as its new risk management information system (RMIS) to manage its general liability and workers’ compensation programs. The city will have Systema Software host this solution via its reliable, secure, and high-performing [SIMS Cloud](#) environment.

“This is part of our ongoing effort to modernize our systems to ensure we are using the city’s resources as efficiently as possible,” said Dave Nunley, Risk Manager for the city of Anaheim. “Consolidating our general liability and workers’ compensation programs into a single risk management information system on a modern platform will improve operations and allow our staff to collaborate more effectively. At the same time, the data mining opportunities will help unlock valuable insights that have the power to bring additional efficiencies to the city.”

“[SIMS Claims](#) provides an award-winning, robust solution to support risk management best practices,” said [Jose Tribuzio](#), President and CEO of [Systema Software](#). “SIMS is fully integrated with Microsoft Office 365 and Power BI, Microsoft’s cloud-based business intelligence solution. These sophisticated BI tools will enable customers to transform data into stunning visuals, share reports with teams, and focus on the information and metrics that matter most.”

[Brian Mack](#), VP of Sales & Marketing at [Systema Software](#), added, “Anaheim wanted a system that could easily connect with interfaces to other third-party solutions. [SIMS](#) offers extensive integration capabilities and will help create enterprise-wide connectivity, streamline operations through enhanced electronic workflows and offer self-service options to its constituents.”
