Systema Software Selected by Baltimore County

SIMS Claims Chosen for Superior Claims-Handling Functionality, Cutting-Edge Technology and Rapid Implementation Strategy

Larkspur, CA – April 18, 2016 – Systema Software, LLC, a leading provider of claims administration software and services to the insurance industry, today announced that Baltimore County has selected SIMS Claims™ to support administration of its general liability and workers' compensation claims. Systema Software will host the claims system via its reliable, secure and high-performing SIMS Cloud environment.

In today's digital age, browser-based applications and cloud computing are the new norms. Racing to keep pace, public entities aim to leverage SIMS as a modern claims solution that delivers speed, flexibility, and ease of use. Systema Software has kept SIMS at the cutting edge of claims software by incorporating a robust set of features, an elegant and intuitive user interface, a scalable architecture, and powerful data reporting capabilities.

Jose Tribuzio, CEO of Systema Software, commented: "As many public entities like Baltimore County have seen, SIMS Claims has a demonstrated ability to meet the needs of public entities, many of which have unique claims-handling requirements. Our staff is committed to delivering the County with the highest level of service and support, so the County can achieve its claims-handling objectives successfully. SIMS has a tradition of empowering public entities through automation, document imaging, and workflow management tools that help facilitate examiner focus, operational efficiency, and optimal outcomes."

For [workers' compensation](), the County will also be able to leverage the premier capabilities that Systema specifically designed for this line of insurance. For example, workers' compensation requirements often vary by state; SIMS provides breakthrough compliance capabilities for each jurisdiction.
