### **Systema Software Named to *San Francisco Business Times*' "Fast 100" for the Third Time**

*Systema Software's Growth and Success Driven by Superior Claims Software,  
Alignment with a Best-of-Breed Strategy, and Passionate Client Support*

Larkspur, CA – October 13, 2015 – [Systema Software](#), LLC, a leading provider of [claims administration software](#) and services to the insurance industry, today announced it has been named to the *San Francisco Business Times*' 2015 list of 100 fastest-growing private companies in the Bay Area. The award recognizes companies that have experienced impressive revenue growth.

[Jose Tribuzio](#), CEO of [Systema Software](#), was honored by the recognition and commented: "Our company has continued to grow because we've focused on delivering a superior [claims system](#) to the insurance market. Many customers select [SIMS Claims](#) because it offers an elegant, user-friendly interface that we continually enhance; flexibility to meet evolving business needs, and a robust set of out-of-the-box features that allow them to hit the ground running. We have continued to innovate with a product roadmap that incorporates emerging technologies, such as mobile and [business intelligence capabilities](#), which empower clients to leverage data faster and more strategically than in years past. All of this helps clients achieve improved efficiency, productivity, and profitability."

[Brian Mack](#), vice president of sales and marketing at [Systema Software](#), commented on the company's ability to grow year over year: "We see more and more organizations looking to modernize their core systems from legacy to next-gen architecture, and many of those organizations select a best-of-breed approach. In this scenario, when insurance organizations assess the claims software market, [SIMS Claims](#) has come out as a category leader time and

again, helping us to grow and better address the needs of organizations with a best-of-breed strategy. Some of the key requirements include integration with other core solutions and an agile approach to implementation that leads to project success.”

[Danny Smith](#), COO at [Systema Software](#), noted another important aspect of the company’s strategy: “Our Professional Services and Client Support teams are passionate about delivering service and technical support to our clients. We’ve built a team with the right mix of professional and technical skills, as well as [claims administration](#) experience. Several technology tools help enhance the client experience. An online planning and management tool enables our Professional Services team to collaborate with clients during implementation. Our online Support Center provides easy access to technical documentation, answers to common ‘how to’ questions, and an ability to consult with other clients who are part of this valued user community. Ultimately, our teams provide clients with the service, support, and assistance they need to succeed.”

### **About Systema Software**
